
Interfacing With Labview Cookbook Mbed

Interfacing With Labview Cookbook Mbed **FREE* interfacing with labview cookbook mbed*

The mbed-read.vi returns a line read from mbed every time you run it, and the mbed-write.vi writes a string to the mbed every time you run it, so you can use this however you want. Whilst the line string is the underlying data, there are also some common cases we've added support for such as sending single numbers, or comma separated value (csv) "packets".
